

Spanish 4 Honors/AP Summer Assignment

Welcome to Spanish 4! In order to make the transition a bit easier for you, I have compiled a list of listening and reading activities you can do to keep your knowledge of Spanish fresh in your mind. These assignments are for enrichment and a formative grade; doing them will greatly help you next year because we will begin the year running. **A composition book may serve as your journal.**

1. From the website called www.notesinspanish.com, listen to the activities and write down a summary of each of the podcasts. Also, reflect on each podcast, compare those practices to American practices. How are they similar/different? Write down your answers in a journal.

Intermediate Section:

Podcast 46 'La nueva inmigración'

Podcast 40 'Huertas solares'

Podcast 37 'Birmania'

Podcast 28 'Comida rápida'

Podcast 22 'Mi pueblo'

2. Go to www.bbcmundo.com and choose **one** article (about 200 words) from each of the following sections to read and reflect upon: América Latina, Internacional, Economía, Tecnología, Ciencia, Salud, Cultura y Deportes.
3. Finally summarize each article and reflect on how these activities affect your world. Note the vocabulary: what new words did you learn in each article? Write down your responses in your journal.
